I. POLICY

It is the policy of the South Dakota Department of Corrections (DOC) to establish and provide effective restrictive housing management procedures for offenders who have demonstrated through their behavior that they pose a significant risk to the safety and security of employees and other offenders. The use of restrictive housing, which may be utilized for those offenders who are removed from population, serving disciplinary sanctions, pending reclassification, or pending protective custody review, is an offender management process requiring specific actions and reviews for placement and/or progression.

II. PURPOSE

The purpose of this policy is to establish criteria and guidelines for the operation and supervision of restrictive housing and provide the criteria used for the placement and progression of offenders into restrictive housing.

III. DEFINITIONS

Central Classification Committee:

Central Classification employees will serve as liaisons to and for their assigned facilities in the areas of classification and case management. The chairperson of the Central Classification Committee will be the associate director or offender services or designee.

Extended Restrictive Housing (ERH):

Housing that separates the offender from contact with general population while restricting and offender to his/her cell for at least twenty-two (22) hours per day and for more than thirty (30) days for the safe and secure operation of the facility.

Multi-Disciplinary Team:

A group of representatives from multiple disciplines that include custody/control, clinical services, case management, and other disciplines as needed on a case-by-case basis, which work together to contribute to the achievement of the offender's treatment plan and program success.

Removal from Population (RFP):

A temporary status reserved for offenders who, for security/safety reasons, must be removed from general population.

Offenders, regardless of diagnosis, indicating a high level of mental health needs based upon high symptom severity and/or high resource demands, which demonstrate significant impairment in their ability to function within the correctional environment.

Significant Functional Impairment:

The demonstration of difficulty functioning in the community as evidenced by engaging in deliberate self-harming behaviors, such as cutting, self-mutilation, ingestion, or insertion of a foreign body, head banging, drug overdose, hanging, biting, or jumping from heights with intent to cause self-harm; demonstrating difficulty maintaining activities of daily living and/or a pervasive pattern of dysfunctional, bizarre, or disruptive social interaction as a consequence of an underlying mental health disorder. This includes offenders with a psychological (P) code 4 and/or 5 with any qualifier and offenders with intellectual and developmental needs (ID) codes 4 and 5 with any qualifier.

Transport Order:

An electronic form that authorizes an offender’s movement from one permanent facility to another permanent facility on behalf of the warden or designee.
