

Canine Searches

Trained canines will be used to search visitors who are visiting inmates entering all DOC facilities.

Physical or verbal contact with the dogs is not permitted.

Please do not approach or allow any family member to approach the dogs unless directed by the canine handler.

A specially built divider screen or chair will be used for each search of visitors.

If you refuse to be searched or fail to follow the directions/rules you will not be allowed to visit any offender and may be removed from the offender's visiting list.

Failure to follow directives from the canine handlers will be grounds for non-admittance or visit termination.
